EDUCATION

Graphic Era Hill University

Bachelor in Technology – Computer Science Engineering ;

Dehradun, India

August 2022 – June 2026

PROGRAMMING SKILLS

• Programming Languages

- Java, JavaScript (ES6+), TypeScript, C++, SQL

• Frontend

- Languages: HTML5, CSS3
- Frameworks: React.js, Next.js
- Styling: Tailwind CSS, ShadCN UI
- Responsive Web Development

• Backend

- Node.js, Express.js, FastAPI
- RESTful API Development
- Authentication & Authorization

• Databases

- PostgreSQL, MySQL, MongoDB, Neon DB
- Drizzle ORM

• DevOps & Cloud

- Git, GitHub
- CI/CD Pipelines
- AWS (Basics), Vercel

• Testing & QA

- Manual Testing, Test Case Design
- Unit Testing, End-to-End Testing
- Postman API Testing, Selenium (Basic)
- Bug Reporting

• UI/UX & Design

- Figma, Adobe Photoshop
- Adobe Illustrator, Adobe After Effects
- Wireframing, Prototyping
- Design Systems, Responsive Design

• Computer Science Fundamentals

- Data Structures & Algorithms, OOP
- DBMS, Operating Systems
- Computer Networks
- SDLC, Agile, MVC Architecture

• Additional Skills

- Performance Optimization
- API Integration, Debugging
- Real-Time Application Development
- SEO Fundamentals, Problem Solving

EXPERIENCE

Dataculture Technologies Private Limited

Data Science Intern

New Delhi, India

June 2024 – December 2025

- Worked on data collection, annotation, and labeling for AI projects.
- Assisted in AI tool testing and project workflows.
- Learned and applied industrial tools in practical development environments.

PROJECTS

Android Screen Mirroring Platform

In Progress

- Developing a low-latency Android screen mirroring platform without USB debugging or root access, targeting <100 ms end-to-end latency with secure real-time streaming.

RAG-Based AI Document Assistant

TypeScript, LangChain, LangGraph

- Built a RAG-based AI document assistant supporting .md and .txt documents, leveraging semantic search and context-aware retrieval to achieve over 80% answer accuracy.

Secure Voice & Video Calling Platform

HTML, JavaScript, Socket.IO

- Developed a real-time browser-based voice and video calling platform using WebRTC with peer-to-peer streaming, end-to-end encrypted communication, and Socket.IO signaling.
